BOND-III
FULLY AUTOMATED IHC/ISH STAINER

MAKE A DIFFERENCE
MAKE A DIFFERENCE TO ACCURACY AND TIMELINESS

Pathologists need the complete case to provide patients with an accurate diagnosis.

BOND-III processes protocol steps simultaneously. This allows a single BOND-III to complete five cases (30 slides) in 2.5 Hours. For labs with multiple instruments, speeds can be even faster. Exceed your pathologist's TAT expectations for complete case delivery.

MAKE A DIFFERENCE TO LABORATORY MANAGEMENT

Put every inch of space to work. BOND-III's small footprint increases the value of your laboratory.

Meet the demands of ever-increasing slide volumes with the space you have. BOND-III is not only the smallest free-standing IHC/ISH stainer, it also produces the most amount of slides per square meter.

With BOND-III, you can make every inch of your lab count.

MAKE A DIFFERENCE TO TEAM PRODUCTIVITY

BOND-III helps create high performance teams as its optimized user experience makes common tasks fast and efficient.

YOUR WORKFLOW, YOUR WAY

» Independent trays allow flexible case management.
» Run continuously with random reagent access. Load antibodies and detection systems whenever you need them.

NO SURPRISES

Withstand the volumes of the busiest labs – confidently approach each day with BOND-III’s unmatched reliability.

93% of labs say BOND is the most reliable.*

ILLUMINATE YOUR NEXT STEP

Ascertain bulk reagent levels and status changes at a glance with BOND-III’s unique active lighting system.

» Fill bottles anytime.
» Visual alerts when bottles need attention.

* According to customers in an independent survey.
Leica Biosystems is a global leader in workflow solutions and automation, striving to advance cancer diagnostics to improve patients’ lives. Leica Biosystems provides anatomic pathology laboratories and researchers a comprehensive product range for each step in the pathology process, from sample preparation and staining to imaging and reporting. Leica Biosystems’ easy-to-use and consistently reliable offerings help improve workflow efficiency and diagnostic confidence. The company is represented in over 100 countries and is headquartered in Nussloch, Germany.

Leica Biosystems – an international company with a strong network of worldwide customer services.
